

INTERREGIONAL PLAN

Interregional Transportation Strategic Plan

The California Department of Transportation (Caltrans) is updating the Interregional Transportation Strategic Plan (ITSP). The ITSP is a statewide plan that helps identify and articulate key interregional corridors and transportation project needs. Caltrans will be hosting five public workshops throughout the state, and a webinar for remote participation. Your input will help guide the development of the plan.

INTERREGIONAL TRANSPORTATION STRATEGIC PLAN

UPDATE 2015

The ITSP envisions a well developed, high quality interregional State Highway and Intercity Passenger Rail system serving as the backbone for the movement of people and goods throughout California.
